

## **Burn Brae Firehouse Rehab**

The 40-year old Burn Brae firehouse is getting the long overdue overhaul. An additional bay will be added to the building along with interior renovations. There will be a new bunk room, a radio room, and vehicle exhaust system. A 20-year bond to be taken out in January will finance the \$1,797,500 project. Construction will begin in February and be completed by August.
