

Rapp and Pines Run Bridges

The BOC unanimously approved Professional Services Agreements totaling \$708,560.00. This was for the final designing of several bridges over Rapp and Pines Run and the preliminary engineering work required for the county trail/road reconstruction project.

The township is required to put up a 30% match and it recommended the board combine the two projects, which would total \$8.8 million — \$6.25 million for Commerce Drive road/trail system and \$2.6 million for the zip ramp. A 30% match would be \$2.64 million.
