connectUpperDublin

This is a new iPhone and Android app that is now available for Upper Dublin residents to connect with the Township and the Upper Dublin community. This app will allow residents to report community issues as well as view, comment on and vote to fix problems submitted by their neighbors.

You can report and upload photos for service requests to the Township. The Township will provide updates to the community as they are acknowledged and resolved. Citizens can create their own "watch areas" to receive notifications about all issues reported in their community, enabling them to follow the progress of all service requests – not just the ones they report. **Issues will be addressed during normal business hours. If a report comes in on a holiday, weekend, or after hours, it will be addressed the next business day.** Visit this link:
